DANNER

Stackable Sliding Door Bookcases

John Danner of Canton, Ohio, inventor of the famous revolving bookcase also designed and built other fine bookcases.

These stackable sliding door bookcases are built in the same fashion as the Danner model from over 100 years ago. We've even matched the finish on their famous wood, Quarter Sawn White Oak.

French Cabinets... Yesterday and Today...

French-style furniture has been collected and proudly displayed for centuries. During the time of Louis XV...possibly the pinnacle of French furniture manufacturing... prominent French cabinet makers joined the Corporation des Menuisiers-Ebenistes... the elite cabinet-making guild of the age. Furniture manufactured by guild members adhered to strict guidelines, were identified by the craftsman's signature, and were ultimately sealed with the guild's official stamp.

Like the masterpieces enjoyed by both French royalty and commoners, our Baltic French Cabinets were designed for beauty and functionality. Quality...quality that we like to believe surpasses that of Louis XV's centuries old edict... is handcrafted into every cabinet.

Please take a few moments to peruse our Baltic French Cabinets, the available options, and the pleasure and beauty they can add to any dining room or kitchen. We are confident that you will not find a nicer cabinet!

Window Coffee Table - 19" High
Width approximately 4½" more than your window
Depth approximately 4½" more than your window

This is a great way to salvage an old window with those special childhood memories attached to it. Whether you saw it while rummaging through your grandparents' attic, or had an eye on that window in the old Springhouse that your uncle is tearing down.

It is also a great gift idea to give to your parents, grandparents, or other loved ones. It'll be rewarding just to see their eyes light up when they see one of their old windows salvaged and now put to good use in their living room, where they can fondly gaze at it and reminisce aloud to their grandchildren sitting beside them on the sofa.

Just bring in your window and we'll build a Wormy Maple Base around it and put Tempered Glass on top of it.

Storage Solutions for Beds

Storage rails that can be used with any bed.....Set up as easy as 1-2-3

1
Attach to headboard like our standard bed rails.

It's like an Under The Bed Chest of Drawers.

Offering Increased Storage Space in the Bedroom

2
Now attach footboard which completes the bed.

3
Filler board fits in center (attach with screws) ready for the mattress.
