Poly Performance Furniture

Escape to a place of fewer worries, a place where there is one less thing for you to think about. There are some things that shouldn't be on your mind, like whether or not your furniture will stand the test of time and the elements. Escape Performance Furniture is built of premium poly lumber designed to resist the damaging effects of UV sun rays, mold and mildew. Seating cushions and pillows are wrapped in a specialized water resistant liner then finished off in a wide array of legendary Sunbrella[©] outdoor fabrics. These core ingredients coupled with time proven craftsmanship ensures a pleasurable escape for many years to come!

Ready for
Comfort?

Starting with a strong inner coil spring core, Escape cushions are then covered with thick layer of foam and Dacron. All this is protected by a waterproofing polypropylene layer to keep moisture and dirt from penetrating the foam layers. The outer Sunbrella® fabric cover is removable for easy cleaning and is available in hundreds of colors and patterns.

Visit www.sunbrella.com to see all the available choices!

COLORS

With 17 poly colors and literally hundreds
of fabric options (visit www.sunbrella.com),
there's surely a combination to please.

Furniture is available in single or two tone poly.

Warranty

Poly Lumber: Escape Performance Furniture warrants to you, the original retail purchaser, twenty-five year protection against rotting, splintering and significant loss of color or structural damage due to termites or fungal decay. Manufacturing defects or rusting of screws and hardware is also included in this warranty.

Defective parts will be replaced or repaired at our discretion. Poly lumber is almost zero-maintenance but is NOT self-cleaning. Cleaning with water and soap will keep your furniture looking great for years to come.

Sunbrella® Fabric: Escape Performance Furniture warrants to you, the original retail purchaser, five-year protection against Sunbrella® fabric becoming unserviceable due to color or strength loss from normal usage and exposure conditions. Normal exposure conditions include sunlight, mildew and atmospheric chemicals.

Sunbrella® fabrics do not promote mildew growth, however, mildew may grow on dirt or other foreign substances. The best way to keep your fabric looking good is to brush off dirt before it becomes embedded in the fabric.

Seat and Back Cushions: Escape Performance Furniture warrants to you, the original retail purchaser, ten-year protection against manufacturing defects of seat and back cushions. Cushion warranty covers loss of cushion resiliency but does not cover normal flattening and softening of cushions, which is a result of regular use and aging and should not be considered a manufacturing defect. If found defective, cushions will be replaced free of charge.

Cushion softness is significantly affected by the type of fabric that surrounds it. Where applicable, rotation of the cushion will greatly extend the life of both the cushion and fabric.

Springs and Recliner Mechanisms: Escape Performance Furniture warrants to you, the original retail purchaser, ten-year protection against manufacturing defects of the springs and recliner mechanisms.

Disclaimer for Recliners only: *Recliners are not intended to be used in an unroofed area, become saturated with water or be exposed to salt water. All metal is painted with a premium paint, but warranty does not give protection against rusting on mechanisms if used in the conditions listed above.*

Any of the above warranties are void if it is determined that the furniture was abused or is heavily soiled.

Not just for the Outdoors!

Escape furniture is equally at home in the sunroom, breezeway, screened-in porch or any high traffic area, especially if frequented by children or pets.
